

## ImTech, Inc. Named One of Oregon's 'Fastest Growing Private Companies' By Portland Business Journal

CORVALLIS, Ore., June 13, 2003 - At an exclusive awards reception in Portland on June 12, the Business Journal honored ImTech, Inc. as No. 16 on its 2003 "100 Fastest-Growing Private Companies in Oregon" list. This ranking was based on ImTech's 152% increase in revenues between 2000 and 2002. This growth occurred during markedly challenging times. Steve Terry, managing partner of PricewaterhouseCoopers, an event sponsor, noted that this accomplishment demonstrates "the talent, imagination and leadership to grow and prosper." The celebration was inspiring for ImTech's two entrepreneurial founders who self-funded the business, a product development company specializing in application of inkjet and other microfluidic technologies.
